

Link Editor

Link Editor Selector

The link editor allows you to create lists of links relevant to you. Links can be to internal content or external web sites.

Links are grouped by **category**.

Highlight an existing link and click or click the **New Link** button

Tags: Income

- **Description** - Enter the text you want displayed
- **URL** - Enter the complete URL (<http://www.xyz.com>)
- **Category** - Enter a new category by typing in the Category box or select an existing one from the drop down list
- **Required Roles** - This is optional. By default all users can view content. When a required role selected, only authenticated users assigned that role can view the link
- **Tags** – This is Optional. Tags allow you to "mark" or identify content different ways.
- **Cancel** – Cancels your changes
- **Save** – Saves your changes
- **Delete** – Deletes the displayed link
- **Save as New Record** – Save as a new link, leaving the original unchanged.
